UNITED

Welcome to the first edition of United, the voice of the Surrey Border Front. We are a newly formed group of Nationalists and National Socialists who work together as one. We have over 60 years experience making a very successful unit. We use the name United for a very special reson; because we must try harder at working together. as our enemies do. We have enough problems with Jewish dictatorship, Communist aggression, Black violence and police suppression without falling out over personal likes and dislikes. Let's get on with the job.

White power, United power
For Race and Nation

Editorial

The Surrey Border Front (S,B.F.) is an umbrella group encompassing no less than nine national socialist groups. We have held regular meetings in the past year and a half. All our meetings have been a success and the very best of nationalists have attended.

We do not believe in lying about our progress. Since the S.B.F. were born we have produced five different leaflets for mass distribution, 22,000 stickers, 1,000 band posters, a mass of give-away information sheets, campaign posters,T-shirts, magazines, banners, flags and much, much more. Not bad for a group who started life with no money behind it. For the future, we have still bigger plans.

S.B.F News

Mosque Threats in Croydon and Chichester

The S.B.F. campaigned against the building of a mosque in Croydon recently. The evening was dark and the faces were angry, but we marched on to victory. We arrived at the public meeting, took over with a barrage of hard questions, displayed our Anti-Mosque posters and distributed leaflets. This was a good day for the Surrey Border Front, gaining us massive publicity and supports in the process.

Our next campaign, in the cathedral town of Chichester, was very successful indeed. Residents, who were very concerned about proposals to build a mosque in the Town Centre contacted us. They pleaded with us to campaign against the plans, and so we travelled down to Chichester.

We distributed thousands of leaflets and posters and we even stuffed the bibles in the Cathedral with leaflets. There was a good response from local people. It seemed that we left Chichester in a state of mayhem, with the newspapers fighting for a front-page story of our campaign, radio coverage and mass hysteria to last six months.

Anti-Paedophile Campaign

Brought to our attention recently was the opening of a paedophile treatment Centre in Sydenham Road, Croydon. The site was opposite a school playground and very near a public house, and might be described as a disaster waiting to happen. Apart from paedophile patients, schizophrenics and sex offenders who would be treated there, what other low-life sex offenders would be treated there, what other low life scum would they take in?

As soon as we heard about this we organised the immediate distribution of leaflets, posters and press releases asking for the immediate closure of this Centre.

Who's to blame for the Paedophile Ring?

Many years ago, justice on perverts and paedophiles was carried out by the inmates of the prison system, not the authorities that put them there.

Then suddenly weak-hearted government officials introduced Rule 43; not satisfied with light sentencing they protected these disgusting specimens and treated them as human beings. Now segregated pervert scum from across the land serve their very short prison terms surrounded by like minded perverts, sharing stories of their disgusting criminal activities with like-minded scum with no threat of attacks. They can serve their time easily and are guaranteed to re-offend with no worry about prison life: a holiday one might say.

Now on holiday from H.M.P.S. they organise themselves into small units across the country, swapping phone numbers and addresses with computer contacts. They form paedophile rings. These are very dangerous people; apart from producing this new threat, the Government find it very hard to restrain and confront it. We, the SBF, believe these vile specimens they call human beings should be locked up in solitary confinement throughout their sentence to stop them setting up new paedophile rings.

Watch out for Perverts
Bring Back the Rope
Hang 'em High
Hail the S.B.F.

Another Mosque Threat in Streatham

Campaigning in Streatham posed some difficulties due to it's being a foreign state. Nevertheless, having successfully crossed the border, we arrived to be greeted with some very dark 'situations' while distributing anti-mosque leaflets around the mosque area. Left-wing scum tried to campaign against us as usual, but to no avail. Apart from gaining new supporters we achieved front page coverage, with the media calling for us to be 'locked up.' So much for our right to demonstrate and make our views known in today's 'democratic' society. This kind of democracy is a joke. If you are white and proud of your nationhood, you have virtually no rights at all. If you are lucky enough to be elected, don't be surprised if the State outlaws your organisation, remember that you have virtually no rights at all.

There are other ways to achieve our nationalist goals; it is possible to infiltrate mainstream parties, organise instant response groups, cause the enemy as many problems as possible, build foundations and maintain accurate accounts. Remember: together we are strong, divided we are weak!

Anti Refugees Campaign - Purley

A new situation came to light, to which we gave our full attention; sheltered accommodation for elderly people had been given to gypsy refugees. in Purley. The occupants of the home were moved away from friends and family and local shops on a false pretence, that the OAP homes were being refurbished. The local Labour run Authority gave it one coat of paint, and without hesitation, moved the refugees in. Remember these people have never contributed to our system, so why should we house them? The so called people's Labour Government now treats our people, who have paid their way all their lives, as second class citizens in their own country. So much for care in the community, they don't care, won't care and don't give a damn.

Police are anti-Nationalist

There has always been a belief among some Nationalists that the police are somehow 'on our side'. This strand of belief was held strongly by Sir Oswald Mosley's B.U.F. and persisted despite the fact that police rounded up 'Blackshirts' to intern them in the War. It persisted through the 1950's despite the fact that the police dutifully crushed the spontaneous protests against black immigrants, notably in the Notting Hill race riots and on through the 1960's when Nationalists were harassed, arrested and jailed. In the 1970's the N.F. still persisted in this belief. Incredibly, here in 1998 the belief still holds sway - no wonder the Jews call us 'dumb goy'. Now, obviously I am not suggesting that we should act illegally - the S.B.F. operates in a legal manner, so any reference in the article which could be construed as encouraging law breaking is purely hypothetical. But let us consider this issue.

How did this belief first arise? This may be somewhat complex and there is probably no one simple answer. A lot of it has to do with the basic character of Aryan peoples. We have a greater capacity for compassion, for nobility, than others. That is why when our Aryan peoples have conquered other lands in the past, we have always tried to raise the standard of life, to bring culture and civilisation. Contrast this with the example of the Jews. The Old Testament of the Bible records the Jews conquests of other peoples and in each case they attempted, and succeeded in many cases, to exterminate the vanquished peoples. The males were murdered, as were females too old for child bearing and often female children. Those of child bearing age were raped and kept captive. The Old Testament contains some of the most barbaric descriptions of war crimes - but strangely this sub-human bloodlust is not made much of. And there are plenty of other examples throughout history, but this is not the main issue of this article, so I will not list them here. The decency or nobility of the Aryan means that we are happier living in lands that are law abiding. Of course there are degenerate

scum, who are of our race and nation and they should be dealt with as ferociously as any other piece of human-looking trash. But, in general, our people are more socially responsible than others. It is then, almost 'in-built' to regard the police as an extension of this decency. Also, the police come from our community in general and surely, one may think, they feel the same as us. They find the old-age pensioners beaten to a pulp by burglars and muggers. They know, as does everyone of minimal intelligence, that most muggers are black. So there is a belief that they would generally be sympathetic to our beliefs. Let us look at a hypothetical question here - if every Negro under the age of 65 were removed from Britain - by how much would the mugging rate fall? How many pimps would be removed? How many drug dealers? Isn't that what the police want? Surely they would be sympathetic to political movements which would repatriate blacks. It is not unnatural to think that.

This is our land - it is truly ours - generations of our ancestors have built it and defended it by their blood, sweat, toil and tears. Immigrants from totally different cultures and climes can never feel this. They will not mind destroying a 1,000 years of custom and culture because it is not theirs. Statues of great Aryan heroes, for example, mean nothing to them; any more than a statue of an African 'hero' means anything to us. They are different. It is naive to expect them to wish for the same social conditions and cultures as us - it is as absurd to imagine that, as to think a troop of chimpanzees would live like us if put into houses. So we tend, or some of us do, to expect the police to feel the same and therefore be sympathetic to Nationalists. And maybe one or two individually are sympathetic, and possibly, in the past more police agreed with us. In the late 1970's a comrade and I were caught by a police patrol while stickering and spray-painting prior to the Lewisham March. Not only did they let us go, but they told us where another group of S.W.P. posters could be found, took some stickers themselves and "wished us all the best for the March". Yet, even then on the day of the March itself the police stopped the N.F. from gathering more than a 1,000 marchers at the assembly point. The reds did

not stop us - it was the police. It wasn't the reds that held up the coaches bringing members to march on the outskirts of London - it was the police. It was the police who directed groups arriving on foot away from the March meeting point into streets full of reds. And it is worse today. We all know of the illegal methods they use to prevent legitimate activities. A couple of years back police from five counties using helicopters, dogs, armed units - you name it - prevented an event by a National Socialist group, an event which was to be held miles from residential areas, which would have been attended by under a 1,000 and which would have been entirely peaceful. Many of the measures they used were blatantly illegal, but we all know (or should) that Nationalists have no rights! On the same day - over a thousand youths attended, unmolested, a Reggae/Rap concert in London at which bands sung about murdering police - and at which at least one shooting incident took place. The areas around the venue and the Tube network saw an increase in mugging and vandalism. What did the police do? Nothing!

Nationalists will be arrested and denied bail. Nationalists are fitted up. Who does this? The police. The police are not Nationalists - they are like prostitutes, they do what their whoremaster tells them. Many see themselves as entirely separate from the rest of the population. They may not like blacks, but they don't like Nationalists either. They are mercenaries. So from now on, do not regard the police as 'friendly' - of course we will stay legal and not break the Law, but do not be under any form of illusion that the police are friends of Nationalism - always be on your guard.

P.C. masonic puppet - "We would like you to make a statement...

"Yes, my statement is that I am not guilty - that is my only statement".

Do not take part in a police interview until a solicitor is present, even if it means staying longer in a police cell. Remember you are only required to give your name, age and address and can, if necessary, make a fuller statement later.

When the Laws of the Land are designed to destroy your race - is it a crime to break them?

Pass The Ammunition!

NEIL makes an appeal to the readers for financial sacrifice

What is the greatest obstacle preventing the victory of Nationalism in the country today? Is it the Blacks or is it Zionist power? Is it the Blair government or is it the Laws? Is it the controlled media? No, by far the greatest factor preventing our victory is *selfishness* pure and simple.

If everyone who grumbled about immigration and race mixing in the U.K. just sent £1 to the Surrey Border Front, then Britain's multi-racial state would soon be extinct. But they won't. They won't because of selfishness reigns supreme. Selfish indifference is the mortal enemy of White Britain.

Supposing that in 1940 the men who became the RAF pilots in the Battle of Britain had said of the threat of invasion: "So what? It's nothing to do with me. Doesn't affect me..." But they didn't. When the sirens went off they ran to their Spitfires and Hurricanes to fly into battle against the enemy bomber fleets heading towards this country. Whatever waffle modern historians care to talk about these men fighting for 'democracy' or 'freedom' the true fact is they were fighting simply because they believed that their country was in danger of invasion. The Battle of Britain pilots were fighting at that moment of history to *keep Britain British.* If they could have given money for that purpose instead of their lives, they would have gladly done so, but they had to put their lives on the line, and many paid the ultimate price, while others lost limbs or their sight.

Time For Financial Sacrifice

We British don't have to put our lives on the line to keep Britain British. But our country is nonetheless faced with an invasion, albeit a peaceful one, just as dangerous as the threat to *thought* to exist in 1940, and this time by people more foreign than the Germans or any other invader in the past. The only sacrifice of patriots now is *time* and/or *money.* Many activists give both.

Compared with the sacrifices made in 1940, giving money is an easy option, but the need is just as urgent. Money is a vital weapon in the struggle. It is ammunition needed to keep out active patriots supplied with literature and other campaigning material.

There are other reasons besides the very real 1940 comparison why supporters should dig deep into their pockets for nationalism: many people who consider themselves patriots will often spend more on petrol, alcohol and cigarettes *in one week,* than they would give to nationalism in a whole year. An even larger number of passive supporters spend more on their annual holidays than on the cause they recommend to their friends. The sympathetic *United* reader is obviously on a higher level than the average self seeking member of the public, but ask yourself dear reader how much better are you? Are you truly worthy of the great cause you've chosen to support? How much is a white Britain worth to you personally? £25? £50 £100? *Only* £100!

Can We Not Do Better Than Our Enemies?

If wishy washy liberals and a gullible public can support Ethiopia and Mozambique with the enthusiasm they do, can our supporters not make greater sacrifices? Are you admitting that your commitment to Britain's survival is any less great than theirs is to the Third World? It is not enough to refrain from donating to Leftist causes, *our own cause urgently needs your help!*

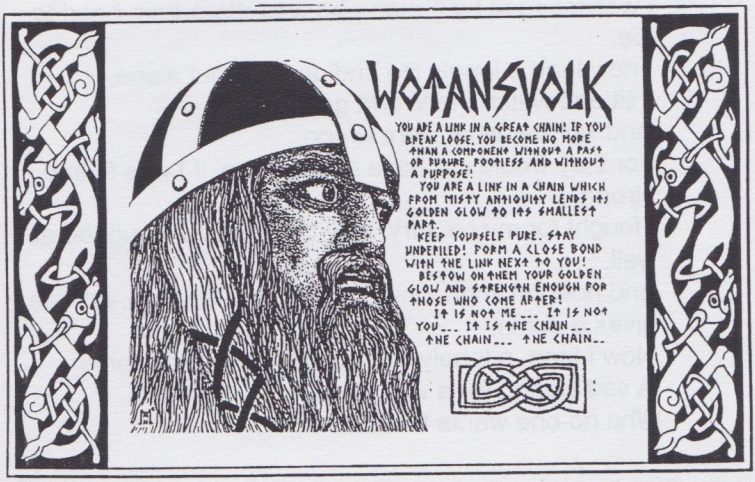
For down-to-earth everyday reasons, nationalism needs your contribution. Recall that feeling of disgust you get when you see another racially mixed couple in the street, that feeling of depression and annoyance when you walk into another newsagent, chemist, service-station, or off-licence and are confronted by another alien face behind the counter. And the feeling of cold anger you have when another race-mixing politician starts haranguing you on T.V. Do you really want to fight back against these things? You know that financial sponsorship of a patriotic political organisation is the only serious way you can do this.

Have you ever thought what things would be like for you as

an individual in a nationalist Britain? Would you like to walk down the street...any street...and see only your own people? Would you like to turn on television and watch positive pro-British, pro-white current affairs programmes and see white newsreaders? Would you like to have a Parliament filled with patriots? Would you like to be able to walk into bookshops and newsagents and find a complete absence of treasonable, banal and sleazy literature? How much is that worth to you?

Your Ultimate Debt

Finally, never forget the ultimate reason why you should dig deep into your pocket for the cause. It was the white race that gave you life. Your ancestors were white and your near descendants, presumably, will be white. The continuation of the genes is the only way an individual attains any kind of immortality in this World. If through race-mixing our race finally dies at some time in the future, then your chance of immortality will have gone for ever. But, if the Race lives on, then something of you will always be there. How significant is that to you? Is it worth at least a week's wages.?



By the Hammer We Shall Conquer

Thor stood by the World's nocturnal edge,
His heavy battle hammer he threw,
"As far as the whizzing hammer falls
I am master of the lands and seas"
And the hammer flew out of his hand ,
Flew over the whole of the Earth,
Fell down of the edge of the extreme south,
So that it all might be his own.
Since then it's a glad Aryan right to acquire land with the hammer,
We are the tribe of the God of the Hammer
And will acquire his World Empire.

A War Veteran's Sad Tale

The day was bright and wonderful,
And happy as can be,
Then suddenly without warning it became a catastrophe,
I was mugged by a man who was *Black* from head to toe,
I now lead a lonely life and don't go out alone,
I sit and watch the World go by,
And wonder what went wrong,
For they would not have mugged me, if I was fit and strong,
I fought for my country, now that it's been mugged as well,
And now I'm imprisoned past my sell-by date, no-one gives a damn,
Now I lead a lonely life, imprisoned in my home,
A sad ending for a war veteran,
Who no-one wants to know.

Our History will Never be Told

We are trying, taking due account of the attitudes of society, to change the face of the world, hoping to revive the ancient virtues, buried under the layers of filth bequeathed to us by our forbears. We can expect no reward for the effort. We are loathed everywhere; if we should lose tomorrow those of us still alive after so much suffering will be judged without justice. We should be accused of an infinity of murder; as if everywhere and at all times , men at war did not behave in the same way.

Those who have an interest in putting an end to our ideals will ridicule everything we believe in. We shall be spared nothing. Even the tombs of our heroes will be destroyed, only preserving - as a gesture of respect - those of doubtful heroism, who were never fully committed to our cause. With our deaths all the prodigies of heroism, which is what our daily circumstances require of us, and the memory of our comrades, dead and alive and our communion of spirits, our fears and hopes will vanish, and our history will never be told.

Inner City Nightmare

You moved away, but don't get far,
You see them in every bar,
Major shops, corner stores - they're not yours,
They're buying us all out, all over our shores,
They breed much faster and have more rights,
You must stand up for *White Rights.*

Welcome to the Football Front

This page is dedicated to spreading the S.B.F./National Socialist message around football grounds, as Football Clubs are the ideal breeding grounds for groups, such as us, to recruit new members. All clubs have N.S./Loyalist supporters, just as they have their fair share of reds as well, so it is up to us to rid our clubs of the red filth, who are trying to ruin our country.

Clubs such as Chelsea, Millwall and West Ham are well known throughout the country for having a large nationalist support, especially during the 1970's and early 1980's era when racism as these clubs was at its peak.

Back then, our alien enemies wouldn't dare breathe near these grounds, as they knew they were so unwelcome, but now, over the last few years or so, Blacks, Asians and particularly the reds have made some sort of stand at the clubs and are trying to ruin the Country with their left-wing trash.

Nowadays, to see a black face at a nationalist football ground, or a group of reds standing outside it selling a lefty 'fanzine', isn't such a shock as it would have been a few years ago...*So this has got to be stopped.*

The Chelsea, Millwall and West Ham reds are trying to fill our teams and stands with blacks and any other non-white race you can think of, so it is up to the members of the S.B.F. to put a halt to this nightmare by doing their bit to prevent this from happening. By recruiting as many people as possible from these clubs to help keep them white, *on and off the pitch*.

By getting as many football supporters as you can to join us, not only will it help to increase the size of the S.B.F. making us a strong political force, it will also help to keep our clubs white, because the size of the Nationalist support in each team becomes so great, that the good old days of Chelsea, Millwall and West Ham being known as white men's clubs will return and the reds, along with their multi-racial brothers, will be driven out for good, and will have to try and ruin another white man's sport.

The S.B.F. must teach the reds that they will *never* take over

our clubs because we will be here for ever to keep racism alive and kicking. So let's start leafleting and stickering our teams' grounds and let the War begin!

Football Front Warning

If you are ever offered cheap skull-caps my boy, go home, put your fingers down your throat and bring up the thought of wearing that vile thing on your head. Stand proud, have boiled bacon for Sunday lunch and join a white nationalist group the very next day.

Big Brother is Listening!

Those of you that have mobile phones should be made aware of the security risk that they are leaving themselves open to. Most people know how easy it is for organisations to listen-in to analogue 'phone calls. But merely leaving a mobile 'phone switched on (analogue or digital) enables these people to pin-point exactly where you are. Obviously, this means they can prove you were at a certain place at a certain time. Just remember there may be times when you should carry a ten pence piece than a mobile-phone, or should at least remember to keep it switched off!

Music

There's never been so many bands playing *White Power* music as there are today; whether or not they are playing together, they are playing White Man's Music accross the World. Apart from the stupid lies and dislikes - this shows that the Fourth Reich is on the march once again.

As Ian Stuart said: "Join a group that suits you, as long as you are fighting for a *National Socialist World* and not each other, we may once again see victory.
